

New Standalone Meters

SSX34:
Superheat & Subcooling
for A/C and Refrigeration

Measures suction, liquid line pressure and temperature to calculate and display superheat/subcooling.

- Select R134A, R404A, R410A, or R22
- Rubber boot
- Auto power off
- Magnetic hanger
- Includes ATC1 pipe clamp

SDMN5:
Dual Port Manometer

Measures differential, absolute and static pressure.

- Measures inches WC, mmWC, mBar, and PSI
- Max/Min data hold
- Rubber boot
- Auto power off
- Accuracy: +/- 1.5% FS
- Range: -60.0 to 60.0 inch WC
- Magnetic hanger

ST4
Dual Temperature
Thermometer

Measures temperatures T1 and T2 and calculates differential temperature T1-T2.

- Select degrees F or C
- 2 k-type thermocouples included
- Range: -58 degrees F to 2000 degrees F
- Rubber boot
- Auto power off
- Magnetic hanger

SVG2
Vacuum Gauge

A rugged vacuum gauge with alarms and increasing/decreasing/stable indicators

- Measures from 50 to 2000 microns
- High and low alarms that notifies the user when the desired vacuum level has been reached
- Rubber boot
- Auto power off
- Magnetic hanger
