to +2"WC, resolution  
to 0.01"WC

■ Standard 9V battery  
■ Auto off to extend  
battery life

# Low Cost Manometer Head for Gas Pressure and Static Pressure

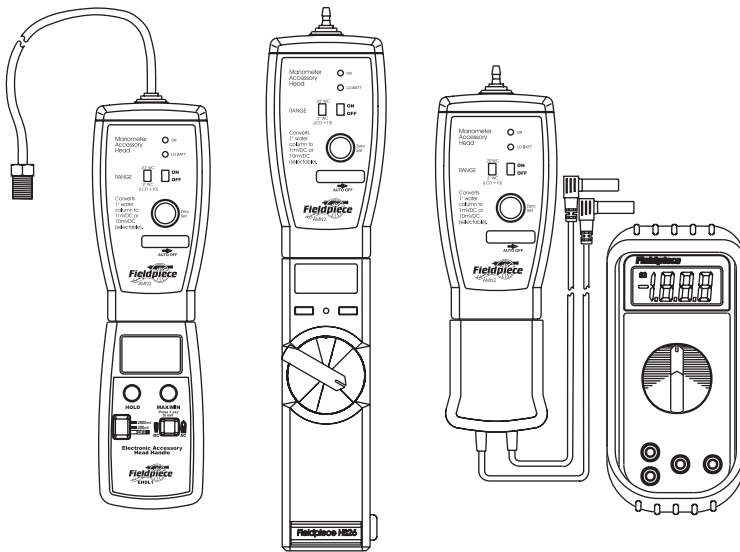

Model AMN2

The AMN2 manometer was designed for gas pressure, but because the low pressure performance is so good, it can be used as a low cost static pressure gage also. It measures pressure, both positive and negative, from -20"WC to +20"WC. When the 2"WC range is selected, 0.01"WC resolution is obtained with a standard 2000 count DMM. The accessory head also automatically turns itself off to extend the life of the 9V battery.

The AMN2 converts pressure, in inches of water column, to mV at a ratio of 1"WC/1mVDC on the 20"WC range and 1"WC/10mVDC on the 2"WC range. The AMN2 snaps onto the Fieldpiece stick meter or the EHDL1 electronic handle for a direct readout. Connect to any DMM with industry standard jacks and a mVDC range with 0.1 resolution using the AHDL1 handle.

## Features

<b>Versatile</b>	<ul style="list-style-type: none"> <li>■ Measures both gas and static pressure.</li> <li>■ Works with most DMMs.</li> </ul>
<b>Rugged</b>	<ul style="list-style-type: none"> <li>■ Analog electronics (sensing function) separated from digital electronics (DMM function) for better overall dependability.</li> <li>■ Rugged mechanical design.</li> </ul>
<b>Easy to use</b>	<ul style="list-style-type: none"> <li>■ Works like all the other Fieldpiece accessory heads.</li> <li>■ Auto-off.</li> <li>■ Standard 9V battery.</li> </ul>
