

Dual Port Manometer

- Gas Pressure
- Absolute Pressure

- Static Pressure
- Differential Pressure

Model
SDMN5

Specifications:

- Accuracy: $\pm 1.5\%$ FS
- Range: -60.0" WC to + 60.0" WC
- Resolution: 0.01" WC for static pressure measurement
- Measure duct pressures to balance air flow
- Measure inches WC, mmWC, mBar, and PSI
- Measures Gas Pressure & Static Pressure
- Measures Differential Pressure P1-P2
- Magnetic hanger on the back of case
- Rugged rubber boot
- Min/Max and Hold
- Auto off to conserve battery life
- 2 - 3/16" Tubes with Brass Fittings included
- 2 - 3/16" to 5/16" Tube Adapters - RMA316 included
