

# Inspect Connect Report

The Job Link mobile app is a powerful tool HVACR professionals use to run their entire job through. The Job Link Transmitter connects your wireless Fieldpiece tools to the Job Link mobile app at long range.

View live measurements, calculations, and diagnostics for free.

Do even more with a Job Link subscription plan. Create professional reports and great looking invoices. Save system measurements and customer details. Fill out inspection checklists. Take photos and notes for each system. It's all stored in the cloud so you can access your data while on the go.
