

Vacuum Gauge

- Increasing Pressure LED
- Decreasing Pressure LED
- Stabilized LED
- Handles pressure overloads
- Temperature compensation
- Excellent accuracy
- Watch pressure drop from atmospheric to under 2000 microns

Model
AVG2

Specifications:

- Measurement range: 50 to 2000 microns of mercury.
- Fitting: Standard 1/4" male flared brass fitting.
- Auto off: After 5 minutes above 70,000 microns.
- Resolution: 1 micron of mercury.
- Accuracy: $\pm 10\%$.
- Overload: 500 psi
