Psychrometer

TEET/ΔT

Fieldpiece
SDP2

- Easily checks Delta-T the right way with TEET (Target Evap Exit Temp).
- Monitors enthalpy (BTU) change across evaporator in real-time.
- Verifies actual performance based on indoor heat load.
-  Wirelessly communicates all measurements to Job Link App (see back for details).

Inspect, Connect, Report

With the SDP2 Psychrometer, 4-Port Manifold, JL2 Transmitter and the Job Link™ app you can run your jobs through your mobile device*. Fill out inspection checklists, view live measurements, gather in-depth diagnostics, and email the report. All job data is saved in the cloud so you can access them from your mobile device.

* iPhone 4S or newer, iPad 3, mini, and Air.
Android operating systems 4.4.4 or newer.

- Live Measurements
- Trusted Diagnostics
- Inspection Checklists
- Cloud Storage
- Report Emailing
